Contract type

Permanent

## Full job description

- Join a central policy agency team that makes real change for Australia's live
- Multiple and varied opportunities across many divisions within The Treasury

### About Our Client

Treasury provides economic analysis and authoritative policy advice on issues such as: the economy, budget, taxation, financial sector, crypto-currency, foreign investment, structural policy, superannuation, small business, housing affordability and international economic policy.

### Job Description

As part of the Financial System Division (FSD), The senior analyst will expand the Financial Innovation Unit in FSD to work in a team tasked with assessing current and possible regulatory frameworks for emerging technology - crypto-assets, digital wallets, decentralised finance, de-banking and stable coins. The role title of senior analyst will include but not limited to.

- Conduct analysis required to support the Financial Innovation Unit
- Demonstrate strong understanding of the current regulatory framework as it applies to crypto-assets and services to stakeholders
- Implement and apply current developments in the Datacasting Transmitter Licenses (DTL) landscape as they apply to the financial system.
- Be able to draw on frameworks and work within other areas to provide expert advice and solve complex problems.
- Develop and communicate key departmental priorities to tight timeline.

### The Successful Applicant

- The ability to be resilient and adapt to change and a fast-moving environment.
